BAY STATE NURSERIES

INCORPORATED

Price List, Spring, 1931

MAIN OFFICE LOCATION

The Main Offices of Bay State Nurseries, Incorporated, are located in North Abington, Massachusetts, 18 miles south of Boston, on Motor Route 58, and less than a mile from the main highway running from Quincy to Bridgewater and the Cape. To reach us by motor from Boston, take Route 58 from Mattapan Square, or else drive to or around Quincy by the Southern Artery; then proceed directly south through Weymouth and South Weymouth until you see our sign at the fork of the road. Turn to the left on Route 58. You cannot miss our nurseries one-half mile farther on.

Our office and shipping departments are at 678 Adams Street, North Abington, Massachusetts, about one mile north of the car line and railroad station. The station is on the Boston Division of the N. Y., N. H. & H. Railroad, half way from Boston to Plymouth. Our perennial gardens, however, are located on North Avenue, between North Abington and Rockland.

Main Office located on Route 58.

FRAMINGHAM OFFICE LOCATION

The Framingham offices and display grounds of Bay State Nurseries, Incorporated, are located in Framingham, Massachusetts, 20 miles west of Boston on the Boston-Worcester Turnpike. Three main highways lead to our grounds—The Boston-Worcester Turnpike, Route 115, The Cochituate-Framingham Road, Route 23, and the Framingham-Saxonville road. This latter has "bus" service. We are North of the center of the town. The railroad station is on the main line of the Boston & Albany Railroad and the N. Y., N. H. & H. R. R.

Salesmen are not in attendance on Sundays at either nursery.

THE PLANTING SEASON

Transplanting can be done successfully as soon as the frost is out of the ground in the spring until early June. Evergreens and herbaceous perennials can be successfully transplanted until the middle of June. We usually begin to dig about March 20th.

SHIPPING DIRECTIONS

In ordering nursery stock our customers are requested to state explicitly the mode of conveyance by which they wish their stock forwarded. We make shipments by express, freight, or motor truck. The price for all our material is at the nursery and does not include delivery. We can make shipment by motor truck at a moderate charge, provided the order is large enough to make a truckload. When no route or method is designated, we exercise our judgment. In no case do we assume any responsibility after packages are shipped, except for our own mistakes. When losses occur by detention or mishandling, claim should at once be made on the transportation company by the consignee.

CLEAN STOCK

In addition to owning one of the finest spraying outfits manufactured, we maintain an inspector formerly in the employ of the U. S. Government, who attends to the spraying at the proper season and also inspects all stock before it is shipped. Our customers are in this way assured of receiving clean stock, free from any injurious insect pest or disease. A certificate of inspection accompanies every shipment.

PLANT NAMES

We have endeavored to list our plants in accordance with the names as given in "Standardized Plant Names," which has been officially adopted by the American Association of Nurserymen.

If you have difficulty in finding in our price list any varieties you wish, write us and we will give you an immediate reply as to whether or not we can furnish them.

CONDITIONS OF SALE

1. The articles herein listed will be furnished in accordance with the following schedule:

1 to 4 plants of one kind will be priced at the each rate, whatever the aggregate of a list made up in numbers of 5 plants of a specific sort may be.

5 to 24 plants of one kind and size will be priced at the ten rate.

25 or more plants of one kind will be furnished at the hundred rate, when hundred rates are given.

FROM THIS SCHEDULE WE WILL NOT VARY because of the fact that considerable time is required to assemble an order made up of small lots of a kind that are scattered over the nursery.

CONDITIONS OF SALE—continued

2. We make no charge for packing retail orders, except on very large evergreens and large shade trees.

3. We give no warranty, expressed or implied, as to quality, description, productiveness, of any nursery stock that we sell. The only guarantee that we make is that our stock is alive at time of shipment and true to name. No complaints will be considered that are not made within ten days after receipt of order. Any stock ordered from this list, found untrue to name, will be cheerfully replaced at the first favorable opportunity for planting, after it has been found not as ordered.

4. Higher prices will be charged for specimens of higher quality selected by the customer, or his representative.

TERMS

Our terms are cash, unless by special agreement. Charge accounts may be opened upon receipt of the names of two or more parties with whom the customer has credit relations, or by sending us bank or trade references, allowing us time for investigation. We can ship by express C.O.D. when desired, with charges for collection added to the bill—provided 20 per cent of the amount of the order accompanies the same as a guarantee. All accounts unpaid after the due date will be subject to sight draft without further notice.

PLACING ORDERS

Orders may be sent to either our Main Office at North Abington, or to Framingham, as you may prefer or find more convenient.

In filling orders we shall select the best material from both nurseries. Daily truck service is maintained between the two shipping headquarters, bringing to each place any particular items from the other establishment required for filling orders.

Dwarf Hedge Yew

The only satisfactory evergreen for dwarf edging hedges in severe New England climate. The best substitute for Dwarf Boxwood. Hardy, really dwarf, fine texture, dark, easily grown, shears perfectly, thoroughly tested for past fourteen years. Also excellent for use in general plantings of dwarf evergreens.

The native Carolinianum, Catawbiense and Maximum types we offer are all nursery grown, healthy and vigorous. We can, through our collector, furnish these types in collected plants of any quantity desired. Write giving sizes and quantities wanted and we will make special quotations.

PEAT MOSS

The most satisfactory mulch for Rhododendrons or broad-leaved evergreens of any type is Peat Moss. This we can supply in large full-sized bales at \$4.00 each, \$36.00 per ten.

Deciduous Trees

In compiling this list, we have endeavored to include only such varieties of stock as we have now in our nurseries, in sizes and quantities offered. In filling orders we shall grade stock according to these specifications. Should orders be received for sizes not found in this list, or should any specified grade be exhausted, we will send the nearest size we have in stock at the time the order is received and charge accordingly UNLESS OTHERWISE ADVISED.

MALUS

(The Flowering Crabs)

We specialize in growing semi-matured specimens of the several MALUS species. Unlike the usual run of stock offered, these are mostly old trees, several times transplanted, and heavy enough to give a worthwhile immediate effect. The degree of heaviness or bushiness of each sort is indicated by the letter X.

Most of the heavier trees are growing in our nurseries at Framingham (in case you wish to see them), but you do not have to consider in which nursery they are growing when placing the order. We will attend carefully to the matter of assembling the items from both nurseries in filling orders.

theifera**Tea Crab**

The following description is given by the late Dr. E. H. Wilson, Keeper of the Arnold Arboretum, who discovered this tree: "Rigid of branch, with wands of blossoms often 15 ft. long, the Chinese *M. theifera* is the very quintessence of Crab-apple loveliness. It is a small tree, seldom exceeding 20 feet in height, with sparse, upright and spreading, rather zigzag branches. When in blossom the whole branch is transformed into a floral plume into which it is impossible to thrust a finger without touching a flower. The petals are reddish pink in the folded bud, white or delicately stained with pale pink when fully expanded."

We also have the same varieties in pots and will be glad to quote on your needs.

Herbaceous Department

We are growing herbaceous perennials at both our North Abington and Framingham Nurseries. The larger variety and quantity by far is grown at our North Abington nurseries, where we have a separate department of over forty acres of hardy perennials.

We extend a cordial invitation to those who are interested, to visit our perennial department, see our propagating greenhouses, our large stock of perennials and our facilities for handling orders.

We are continuing to offer perennials in quantities of three, instead of singly, as we believe generally speaking it isn't practical to get a satisfactory garden effect by using one plant of a kind. Please remember that five plants or more of one variety will be priced at the ten rate and that twenty-five or more of one kind will be entitled to the hundred rate. In instances where only a single plant is wanted, the price will be one-third the rate for three.

The material we grow is strong field grown stock, with the exception of some varieties which transplant better by being grown in pots.

As in the case of evergreens and flowering shrubs, orders may be placed for perennials at either our North Abington or our Framingham offices, and we will attend to the prompt filling and careful assembling of your orders.

Hardy Perennials, Ferns and Grasses

Varieties marked with an asterisk (*) are particularly adapted for the rock garden.

Full descriptions will be found in our Handbook of General Information.

GERMAN IRIS—TALL BEARDED IRIS

In the following list of Tall-Bearded Iris (German Iris) are included a number of the older varieties, as well as many of the newer sorts. Many of the older varieties have certain characteristics that make them still greatly desirable, and we have added in the past few years a number of newer varieties that we consider of real value. Descriptions of these Iris will be found in our Descriptive Handbook.
